Reorganize Foothills Ball League With Ten Teams

At a recent meeting in Champion, the Foothills Baseball League was organized for the coming season. Ten teams have entered competition, with the league being divided into two sections; Blackie, Nanton, Staveland, Claresholm and RCAF make up the western division; Champion, Carmangay, Barons, Lomond and Enchant are in the eastern division. The teams in each section do not play teams in the other section. Each division will hold its own playoffs, and the winners in each will play off for the league championship. Four teams in each section will enter the playoffs.

Three new teams entered the league this season: Blackie, Lomond and Enchant.

F. G. Burgess of Carmangay was elected governor and Clarence Rhodes, Champion, is secretary-treasurer.

The league schedule commences on May 16 and ends on July 22, with each team playing two home and home games with each other team in its section.

Car Accident At Street Intersection

A collision between two cars at the intersection near Wheat Centre Motors late Saturday afternoon sent two persons to hospital for treatment and caused considerable damage to both cars.

Mr. and Mrs. Lloyd Graham and baby daughter were the occupants of one car and when the collision occurred Mrs. Graham and the child were thrown out of the car when the door on their side was opened by the force of the impact. They were rushed to hospital where Mrs. Graham was treated for shock and bruises and the child was treated for a cut on her forehead. The left front of the Graham car was damaged to the extent of about \$500. The second car, driven by Melvin Cass of Lethbridge, was damaged to about the same extent when it collided with the left front fender of the Graham car.

Brooding Chicks With Infrared Lamps

Poultry producers are turning more and more to the infrared lamp method of brooding chicks.

With infrared brooders there is no fuel to carry, no ashes to remove, no burners to clean. Brooders are light in weight, and are very easy to set up, move and store. You can see the chicks without lifting a cover.

Infrared brooders usually cost no more to operate than other types of brooders. The brooders are efficient. Radiation from an infrared lamp warms only the objects to which it is directed; it does not warm the air.

The labor-saving and economy aspects of infrared brooders appeal especially to farmers who raise 100 to 500 chicks per brood and are busy with other work at brooding time.

Whether a brooder is purchased or built the following are points to consider. Make the brooder house draft free. Insulating the house will reduce drafts, cut down on the amount of electricity used, and aid in ventilation control.

Buy enough lamps to furnish sufficient heat at the lowest temperatures expected. Infrared lamps come in 125, 150 and 375 watt sizes. Buy lamps that are equipped with built-in reflectors, unless your brooder is designed for the use of lamps without reflectors. Hard glass lamps, which cost twice as much as ordinary lamps, or guards or shields are good insurance against breakage. Use porcelain sockets. Support the brooder with a chain or wire, not with the cord that carries the electricity. Brooders should have guards to prevent lamps from coming in accidental contact with the litter or other combustible material.

The following table shows the approximate number of chicks that can be brooded with a 250 watt lamp at various room temperatures.

SLOW GOING
Wheat exports in first half of current crop year are running 15% below those in some period of year ago, reports The Financial Post. Wheat flour exports are down 8%. Biggest consumer is the U.K.—it's taken 45% of all Canadian wheat exports and 29% of flour shipments to date. Carryover of wheat and flour (in grain equivalents) into the last six months of crop year is 718 million bushels, about 16% above what was available for consumption and export a year earlier.

Mrs. Anne Pedersen has been a patient in the High River hospital. Mr. and Mrs. Miles Hurl of Calgary and Mr. and Mrs. Joe Leslie were Sunday visitors at the home of Mr. and Mrs. George Randle.

Miss Beverley Richardson spent the weekend at Arrowwood with her sister, Mrs. Bob Brown.

Janie and Frances Randle spent a few days in Calgary last week with their grandparents, Mr. and Mrs. Miles Hurl.

Leroy Maso is wearing a cast on his leg to help promote the healing of a knee injury.

Mr. and Mrs. E. Randle of High River, Mr. and Mrs. Ernie Noxon of Gladys, Mr. and Mrs. Carl Stenger and Mrs. Lorraine Moore were Sunday visitors at the home of Mr. and Mrs. Paul Randle.

Sunday dinner guests at the home of Mr. and Mrs. Fritz Mason were Mr. and Mrs. Jack Hunter and family of Ensign.

Bob Boyd spent Friday and Friday night visiting relatives at Carmangay.

Mr. and Mrs. Harley Hutton motored to Edmonton last week to attend the wedding of Max Hutton.

Beginning on Sunday, May 13, church services at the Farrow United Church will be at 11:15 a.m. instead of 12 noon. Church and Sunday School will be combined.

movements when the temperature is right. If they crowd under the lamps they are too cold. In this case supply more heat by lowering the lamps to not less than 15 inches above the litter, or use higher wattage lamps. If the chicks are too warm, they will move to the outer limits of the brooder area. In this case turn off some lights or raise them to 24 inches above the litter.

Executive Meeting Held

Minor Leagues To Have Playoffs and All-star Teams

A meeting was held in Vulcan on Wednesday, May 2 of the Wheat-belt Minor Baseball League executive, and the coaches and managers of the various teams in the Little and Babe Ruth Leagues.

There was a splendid turnout of 21 interested individuals which speaks highly of the attention given to these Minor baseball leagues.

Unfortunately, Lomond decided to drop from the Babe Ruth League due to a shortage of eligible players in the proper age group, which necessitated the drawing up of a new schedule. However, they hope to give their interested boys some baseball through their High School.

The Babe Ruth League opening was set back a week, resulting from adverse weather conditions holding up practices, and the schedule for both leagues shortened a couple of weeks to enable league play and playoffs to conclude before too many youngsters leave on

Brant-Ensign Pioneer Passes

(By Ensign Correspondent)
Nels Peter Larsen passed away in the Calgary General Hospital on Wednesday, May 2, at the age of 79.

Mr. Larsen was born in Copenhagen, Denmark, and moved to Centerville, Utah, with his parents at the age of five. In the year 1897 he was married to Ann Scenssen. In 1902 Nels Larsen moved to Raymond, Alberta, where he took part in the building of the Raymond Sugar Factory and in 1904 he and his family moved to Brant by covered wagon, where they homesteaded, later moving to the Ensign district for several years before moving to Calgary in 1952 to make his home with Mr. and Mrs. George Eamorf.

He was predeceased in 1951 by his wife, Ann.

He is survived by two daughters and one son, Mrs. Grace Campbell of Olds, Mrs. Alice Eamorf of 2333 State Road, Calgary and Bert Larsen of Ensign.

Funeral services were held in the Memorial Centre at High River on Saturday, May 5 by the Latter Day Saints. Funeral arrangements were in charge of Spodgrass Funeral Home.

Burial took place in the High River Cemetery.

THE WEATHER

Very little seeding or other work on the land has been done this week as the result of almost daily showers and snow flurries. Warmer weather prevailed on Wednesday but skies were still cloudy.

Approve Baseball Projects

Howard Spaeth Elected President of Lions Club

Election of officers of the Vulcan Lions Club for the ensuing year was held at the regular meeting Monday evening of this week, with Howard Spaeth elected as president to succeed Charlie Andrews.

Other officers elected were: Elwood Myers, first vice-president; Pat Roe, second vice-president; John Wolfe Jr., secretary; Doug Faris, treasurer; Myrtle Smith, Lion tamer; John Andrews, Tailtwister; Ivan Haga and Max Jesse, two-year directors. The other two directors with still one year to serve are Clifford McAskill and Stuart Campbell.

Business included the approval of a project whereby the Lions Club will undertake to build a four-foot fence around the new baseball diamond at an estimated cost of \$500 plus labor.

Approval was also given a suggestion that the Lions buy equipment for a new, three-team town league composed of the boys who do not make the regular Little League team. David Mitchell, Don Larkins and Don Mitchell have offered to coach these teams and coaching assistance may also be given by members of the Vulcan Elks senior team.

The program consisted of slides and commentary on Korea by Sgt. Charlie Pickard of the Strathcona, Calgary.

Keystone Class

Mrs. S. Nafziger was hostess to the ladies of the Keystone Class of the Church of Christ on May 3. Nine members and three visitors were present.

After the singing of a hymn by the ladies and a prayer by Mrs. Donald Smith, the Lord's Prayer was repeated by those present.

The devotion was given by Miss N. Ware and was taken from the 2nd chapter of Luke. The roll call was responded by each member telling of "a memory of a Mother." Minutes of the previous meeting were read and approved. A donation was made to the Alberta Bible College of Calgary. It was decided to start a flower fund to be used in buying flowers for any seriously sick members.

After a short period of silent prayer, Mrs. J. Chapman led in the closing prayer. A very fine lunch was served by the hostess for which a hearty vote of thanks was given.

A SLIGHT DIFFERENCE

The gam-chewing girl
And the cat-chewing cow
Are somewhat alike,
Yet different somehow.

And what is the difference?
I think I know now—
It's the clear thoughtful look
On the face of the cow.

Board of Trade

To Present Resolutions On Wheat Situation

Two resolutions have been passed by the Vulcan District Board of Trade to be presented at the annual convention of the provincial Boards of Trade and Chambers of Commerce to be held in Red Deer.

The resolutions, dealing with the marketing and storage of grain, are believed to represent the wishes of the residents of this area and are as follows:

Resolution No. 1—
WHEREAS the situation of the wheat-farmers of Alberta is very serious, in as much as most of the larger wheat-growing areas have only received two or three-bushel quotas since the 1955-1956 crop year started nine months ago, and up to date, at least five shipping points in the County of Vulcan have only been able to take delivery of approximately one and one-half bushels in the past nine months, and at two other points only two and one-half bushels could be delivered in the same time, and

WHEREAS most of the grain farmers are having great difficulty in financing their spring operations, due to their inability to dispose of their grain, and

WHEREAS R.L. Hon. C. D. Howe has recently stated in parliament that all delivery quotas for 1955-1956 season will be cancelled promptly on July 31st, 1956, and

WHEREAS at the present time the elevators in the County of Vulcan have shipping orders for over 300 cars of wheat, but very few cars are available for shipping same, and

WHEREAS if the amount of grain to be shipped from these points by July 31st, 1956 is to be comparable to the amount shipped during the crop year 1954-1955 there will need to be a great increase in the number of grain cars supplied,

THEREFORE BE IT RESOLVED that the Vulcan Board of Trade urge:

1. That sufficient grain cars be provided to handle equal quotas to all shipping points in Western Canada by July 31st, 1956 and that such quota be at least equal to that of the 1954-1955 shipping season.

2. That the Railway Companies or the Government should make a definite number of days in which all Canadian cars should be returned to Canada after being unloaded of the commodity with which they were loaded in Canada for shipment to the United States.

3. That, in view of a statement by the Right Honorable C. D. Howe that substantial increases had been made in delivery quotas, it is felt that this District is not receiving equal treatment with other shipping points.

4. That the Canadian Railways be urged to provide more new box cars, if necessary, to handle sufficient grain to keep the terminal storage facilities at full working capacities.

Resolution No. 2—
WHEREAS it is apparent that the storage facilities at seaboard ports in much less than is necessary to take care of stocks of the various grades of grain required for winter sales, and

WHEREAS, by having such storage, the required grades of wheat would always be available when needed for export and there would also be a safeguard in case of railway or other strikes, and

WHEREAS by having these facilities Canada would not lose sales through inability to make prompt deliveries, as has been reported at various times in the past,

THEREFORE BE IT RESOLVED that the Canadian Government be urged to provide all the extra storage facilities possible at the seaboard ports.

Brownie Activities

April activities in the First Vulcan Brownie Pack included the enrollment of Tweenies Joy Chow, Sandra Palmer, Linda Bateman and Glenis Sutherland by Guide Captain Mrs. Russell Graham. Mrs. Graham also presented Charlotte Earl and Valerie Tompkins with their Golden Hands.

Proficiency badges were awarded to Marie Eleanor Manning (skater's and writer's badge) and to Jean Hess (writer's badge).

Farm Accident Takes Life Of Carmangay Boy

(By Carmangay Correspondent)
Donald Hubka, two-year-old son of Mr. and Mrs. Robert Hubka, died Friday night in the Carmangay hospital of injuries received on the Hubka farm Friday afternoon.

Donald was playing around a grain loader, which was operating, when he accidentally caught his arm in the mechanism. The machine stopped immediately and the injured child was taken to the Carmangay hospital where two doctors worked over the young patient for two hours in vain effort to save his life. The arm was badly mangled and he suffered from severe shock.

Funeral services were held on Monday morning at 10:30 a.m. in Claresholm with Father O'Byrne, Father Lebel and Father Clancy officiating.

Donald is survived by his parents and two sisters and a brother. Out of town mourners were from Elk Point, Winnifred, Trail and Calgary.

New Minister For St. Aldhelm's

Rev. R. H. Johnson, a recent graduate in theology of the University of Toronto, has arrived in Vulcan to take over the ministerial duties of St. Aldhelm's Anglican Parish.

Mr. Johnson, who hails from Winnipeg, and Mrs. Johnson, a native of Kenora, Ont., have taken up residence in the Anglican Church manse.

Mr. Johnson will be ordained at Calgary on May 27.

Much Business At FUA Meeting

A meeting of the Berrywater Local F.U.A. was held at the home of Mr. and Mrs. Allan Sinclair on Monday evening, April 30 at 8 p.m., with 19 members present. Lee Richardson, the president, occupied the chair.

Business transacted consisted of: Approval of a machinery contract with the CCIL.

Request for membership cards for all members of the U.F.A. Co-operative.

Study of a brief on the relationship of Municipal and Provincial Taxation received from the Head Office.

Decision to hold a meeting on May 30 at 8 p.m. in the Community Centre at which J. M. McKay of Brant is to be invited to speak on Municipal Taxation.

Decision to help finance the sending of a Junior to the Young People's Week at the University of Alberta.

Nomination of delegates to attend the District 12 Convention at High River on June 22.

Decision to contribute the sum of \$50.00 towards the provision of a lighting plant at Berrywater Community Centre.

At the conclusion of the meeting Mrs. Sinclair, assisted by the ladies of the F.W.U.A., provided a nice lunch.

Former Armada Minister Dies

Friends of the Armada district will be sorry to hear of the death at Lacombe of Rev. E. C. Madsen, a minister in the Armada district from 1925 to 1929. He died March 31 at the age of 82, at the home of his daughter.

Predeceased by his wife in 1951, he is survived by one son, Paul; two daughters, Ruth Falk and Lydia Susut; seven grandchildren, three brothers and one sister. He was held in high esteem by his neighbors, friends, family and church.

Funeral services were conducted at Lacombe by Floyd Coxson, assisted by J. D. Kennedy, D. H. Russell and K. A. Kennedy.

Cub Leaders Course

A very successful Cub Leaders course was held in Vulcan April 29, attended by leaders from Milo, Ensign, Brant and Vulcan.

Instructors were Divisional Commissioner Barker from Turner Valley, Don King of High River and Albert Collier of Vulcan.

Hopes For Gas Brighter

Vulcan, Champion and Carmangay residents—dependent upon the building of the Trans-Canada gas pipeline before their communities can get natural gas service—are happy that arrangements have been made to make a definite start on the pipeline July 1 of this year, for this means that work on the feeder line from the Pincher Creek field can also be expected to start.

A stub line from this feeder line is planned to serve the three towns, but the project has been at a stand-still while the fate of the Trans-Canada line has been debated.

The announcement on May 8 that the government will lend Trans-Canada up to 90 per cent of the cost of the western portion of the proposed 2,200 mile line means that construction will start this summer. The line is expected to be completed to Winnipeg by the end of the year.

After Real People

An important and desirable change has just been made in our immigration policy, says The Financial Post. Now we are going after promising people and not determining eligibility for entry solely by occupation.

For some years, for instance, a man's chances of getting into Canada were greatly affected by whether he was a member of a particular trade (e.g., carpenter) in which, according to the cumbersome workings of our statistical machinery, we were said to have a shortage.

The truth, of course, is that what we are really concerned with is not whether a man is a carpenter but whether he has the guts and the adaptability to become a good enterprising Canadian.

We're looking for people who seek opportunity and the people who want merely security aren't what we should be after at all.

The Land And The Scribes

Recently in western and eastern Canada, a select group of professionals formed an organization which is expected to have a profound effect on the future of Canadian agriculture. The new body is known as the Canadian Farm Writers Association and includes in its membership editorial staffs of farm journals, farm editors of newspapers and farm commentators of radio and television stations.

The farm writer already has done a great deal to enhance the lot of the farmers in this country. By reporting the findings of agricultural scientists, he has helped to revolutionize crop growing, stock raising, land conservation and farm management generally. Conversely, he has continuously championed the farmer's cause by bringing light to bear on his ever-present problems and difficulties and, directly and indirectly, has been responsible for legislation of direct benefit to farmers.

The farm writer's news beat is wide indeed. He covers the farm experimental stations, agricultural colleges, various farm organizations. He is constantly ferreting out new facts from industries, the existence of which is dependent on the farmer's prosperity. He has his fingers constantly on the pulse of the rural community in his own area and usually serves as an unpaid public relations man for local rural organizations.

He is found at small and large conventions, farm shows and plowing matches. You could see him at the country fairs quietly poking around the cow barns or among the pickle displays. Short-sighted is the person who does not welcome the presence of the man with the notebook, camera or tape recorder.

One of the primary objectives laid down in the constitution of the Canadian Farm Writers Association is "to promote better understanding between agriculture and all other groups through the medium of radio broadcasting, telecasting and the printed word."

This is truly a worthwhile aim as there is an abysmal lack of understanding of farm problems among the millions of consumers of farm products in the large urban centres. If, in the next few years, the Canadian Farm Writers Association succeeds in penetrating through this hard crust of urban indifference, its existence will have been more than justified.

QUEENSTOWN

Mr. and Mrs. Norman Truman have left by bus for Oakville, Ont., where they will take delivery of a new car.

Mr. and Mrs. "Happy" Bushell of Calgary were Sunday visitors at the J. E. Bushell home.

Work on leveling, raking, cleaning and seeding on the site of the children's playground has been in progress and hope to have some equipment installed soon for the young fry's entertainment.

Sorry to hear Mrs. H. Clemmons is at present a patient in the Vulcan hospital and we hope for a speedy recovery.

Mrs. Larry Androsch and Bud Negrave of Calgary spent the weekend at the home of their parents, Mr. and Mrs. P. Negrave.

The appearance of the Legion hall has been greatly improved with new windows and siding on the front.

MOSSLEIGH

Blind Creek-Mossleigh W.A.

The Blind Creek-Mossleigh W.A. held their May meeting in the church, with a good attendance. Roll call was answered by a plant, slip or seeds, and these were later auctioned off for the Sunshine Fund. The devotional was on "Christian Citizen".

A cold supper and variety show was suggested as a money making scheme and all suggestions for a program are welcome and are to be given to Mrs. Wilson before the next meeting. Farrow is to be invited to the August meeting and a guest speaker is to be arranged.

Anybody with old clothes and have no use for them are needed for a shipment for Korean Relief.

These clothes must be wearable and clean, and to be left in the church kitchen before Monday, May 28.

The June meeting is to be held at Mrs. Hagedorn's home and roll call will be an article for the bazaar cupboard.

Miss F. Cannon of the Dinton district displayed her hobby, stuffed toys, for the ladies. Mrs. Hagedorn acted as auctioneer and sold the plants, taking in about \$11.00. After the auction, Mrs. H. Wilson Jr., Mrs. A. Tharlie and Mrs. G. Hohn served lunch.

Friday night, Mrs. J. Leslie, was hostess for a lovely shower in honor of Sylvia Morrell of Bowness, a former resident of Mossleigh. After two contests prepared by Joan Leslie, Mrs. Edna Piehl presented Sylvia with the gifts. Joan Leslie assisted in the opening of the gifts. After Sylvia had thanked everybody, lunch was served by Mrs. J. Leslie, Mrs. Jolly and Mrs. Hohn.

Community Club

The Community Club met on Saturday night with a fair sized crowd in attendance, a new hall was discussed and a committee of nine men were appointed to look after the details.

Mrs. J. Leslie was appointed to take Mrs. Kidd's place as social convener. Plans were for the Sports Day which is to be held on Farmer's Day in the park. They hope to have the four league boys ball teams play a tournament, also a ladies game and races for both young and old. A dance will be held in the hall.

No cards were played and no lunch was served.

Mr. and Mrs. W. Campbell and family were Sunday visitors at the home of Mr. and Mrs. Ralph Arison of Bassano.

Mr. and Mrs. W. Hagedorn motored to Calgary on Saturday to attend the wedding of a cousin, Miss Short.

BRANT

Ladies Aid

The Ladies Aid met at the church hall Thursday afternoon with 12 members present, with the president, Mrs. Steve Dixon, presiding.

The devotional was given by Mrs. W. A. Smith. Roll call was answered by something pertaining to Mother's Day.

In the business session, it was decided that the chairs bought by the Ladies Aid to be loaned for local use by obtaining permission from the president. Eight dollars was donated to the Scout-Guide Parents Association to help pay the dues for the hall.

A contest, "name the town and places," was won by Mrs. Karl Christofferson. At the close of the meeting, Mrs. B. Prater and Mrs. Stacey Graham served a lovely lunch.

The flu is still quite prevalent in both town and district.

Due to the amount of snow the past week and present, seeding may be delayed another week.

The drove of graceful swans on the Frank Lake have disappeared, perhaps to a warmer climate. The ducks and mud-hens are still quite prevalent, not so easily discouraged.

Mr. and Mrs. Jack Thompson are holding Open House from 7 to 9 p.m., Sunday evening, May 13 in honor of their 35th wedding anniversary, for their family, friends and neighbors.

The Ladies Aid will entertain the Blackie Ladies Aid at their next meeting in June.

Mr. and Mrs. Roy Krieger from Kenora, Ontario, arrived by car Monday to visit Mrs. Krieger's uncle, Frank Sellars and family, and left Friday morning for Spokane, Wash.

Fred Jensen and niece, Miss Genevieve Frazur from Los Angeles, Cal., arrived Monday by train to visit the former's brother, Nels Jensen and Mrs. Jensen.

Bob Sellars and Bruce Ferguson from Calgary motored down here Saturday afternoon, for the weekend.

Elton Wilkinson from Exshaw, motored home Friday night for the weekend.

Mr. and Mrs. Nels Jensen and Cliff Jensen, accompanied by his brother Fred and niece, Miss Genevieve Frazur, motored to Bon-Accord, Alta., on Tuesday to visit their daughter, Mrs. Don Pearson and family. Next day they motored to Rocky Mountain House to visit another daughter, Mrs. Bill McCarroll and family, and arrived home Friday night.

The girls softball game between Vulcan High School and Brant played Friday night at Brant was won by Vulcan 32-21.

FEED OR MALTING?

Choose your barley for the purpose intended, suggests A. D. McFadden, Cerealist at the Lacombe Experimental Farm. In these

days of wheat surpluses there is a natural tendency to look for every possible channel of quick cash returns, and malting barley with its attractive premium has met with favor.

Yet, points out Mr. McFadden, much of the barley grown in Alberta is feed, and the man who intends to feed his barley might well consider growing a feed variety. The present call for seed in the province is chiefly for O.A.C. 21, Montcalm and Olli—all of which are acceptable to the malting trade. O.A.C. 21 and Montcalm are relatively late maturing while Olli is a very early maturing variety. Feed varieties comparable in rate of maturity with O.A.C. 21 and Montcalm are Vantage and Husky, both of which give considerably higher yields. Wolfe and Gateway, while slightly later maturing than Olli, produce on the average somewhat higher yields than this variety.

off by producing malting rather than feed barley. The man who is feeding all he grows, however, might well consider the variety of greatest yield.

How An Advertised Article Sold 15 to 1 Over An "Unknown"

Lit Brothers, Philadelphia department store, recently conducted a test to determine the selling power of advertising.

Simmons mattresses, a branded, advertised product, sold 15 to 1 over identical mattresses bearing a fictitious brand label which was unknown to the public.

The store then lowered the price \$5 on the mattress with the fictitious label. Simmons mattresses still outsold the "unknown" by 8 to 1.

Later a \$10 differential was imposed. Simmons mattresses still outsold the "unknown" by 14 to 13.

Mr. Merchant . . Ask Yourself This Question

"Can I afford to operate a business which is 'unknown' and which sells 'unknown' products?"

Maybe your products are just as good; maybe your store is just as good—or even better—than others. But the Philadelphia department store found that customers don't spend their time in finding out about your store and your products.

The product which tells them is the one that sells them. And the store whose name is a household word, made so by constant, consistent and honest advertising, is the one in "preferred position" by a score of 15 to 1.

Yes, good and honest advertising doesn't cost. IT PAYS!

THE VULCAN ADVOCATE

Carmangay

Miss Ethel Underdahl of Taber, Mr. and Mrs. Jim Underdahl and family of Edmonton were guests at the home of Mr. and Mrs. Jim Korth last week.

Mr. and Mrs. Wm. Sparkes and sons of Lethbridge were visitors in town on Sunday.

Mr. and Mrs. Donald Farney of Calgary were visitors at the home of Mr. and Mrs. Ivan Ohler over the weekend.

Sympathy from the town and district is extended to Mr. and Mrs. Robert Hubka in the death of their son, Donald.

Sympathy from the town and district is extended to the Oatts family in the death of Jim Oatts, last Sunday.

Sympathy from the town and district is extended to the Fred Smith family in the death of Mr. Smith's mother on Friday.

Mr. and Mrs. Roy Church left on Monday for a trip to Eastern Canada.

Evening Auxiliary

The ladies of the Evening Auxiliary of the W.A. met on May 3rd with 14 members present. One new member joined. It was decided to have a Fashion Show and Tea about June 9 in order to raise money for the cleaning up of the church basement. A committee was formed to see about getting the clothes. Plans to make a community cookbook were made. The rest of the meeting was taken up with the planning of the Mothers' Day Program which is to be held on Friday, May 11 in the Church basement. Lunch was served by Dora Bond and Stella Atkins.

Felicity Club

The Felicity Club met at the home of Peggy Bach with Hazel Lunberg in the chair. There were 8 members and two visitors present. After a short business meeting, a social hour was enjoyed by all. Roll call for next month will be another page for the 'Get Well Book'. A delicious lunch was served by the hostess assisted by Lois Schults. The next meeting is to be held at the home of Reta Wynns.

The Carmangay fire department was called out to the farm of Paul Binnings on Sunday evening. A barn, 120 pigs and upwards of a 1,000 bales of hay were destroyed before the blaze was brought under control. The cattle in the barn were saved. Many of the pigs rushed in again and were lost. The fire was on the old Alex Nash ranch now owned by the Binnings, on the Little Bow.

James Oatts

A long-time rancher of the Carmangay district, James David

Oatts, 89, died Sunday at his home shortly after returning from a holiday trip to Kentucky.

He was born in Monticello, Kentucky, and came to Carmangay district in 1918, when he began ranching operations.

Surviving are his widow, Elizabeth; three sons, Neil of Carmangay, James David Jr. of Akron, Ohio, and Kenneth Douglas of Staveley; two daughters, Mrs. Mamie Blair and Mrs. Edith Croxley, both of Moorehead, Kentucky; six grandchildren and six great-grandchildren.

Funeral services were held Tuesday, 2 p.m. in Carmangay United Church with Rev. Peter Dawson officiating. The remains will be forwarded to Monticello for burial in the family plot.

Senior W.A.

On Friday, May 4 the Senior or Afternoon Group of the W.A. met for their regular meeting, 17 members and one visitor being present.

The president, Miss G. Hillard, called the meeting to order. All joined in singing the hymn and repeating the Lord's Prayer.

Devotional period was conducted by Mrs. Teskey who read Psalm 8 and the lessons on Devotion and Adoration.

To relieve the secretary-treasurer of some of the work involved in keeping so many books, it was decided to have a treasurer. Mrs. Hunt continued to act as secretary and Mrs. Dawson is the treasurer.

A Mother's Day program for all ladies of the town and district will be held Friday afternoon, May 11 in the church. The Evening Group of the W.A. will have charge of the program and the Afternoon Group will look after the lunch. All ladies are requested to come and enjoy an afternoon of entertainment and good fellowship.

A donation of \$75.00 was made to the Missionary and Maintenance Fund and it was decided to purchase a dozen of the large size Hymnals for the church.

A clarification was made as to how the W.A.s' talent money is to be used. This is definitely for the Cleaning Fund.

The W.A. will cater to a Mother and Daughter Banquet for the Explorer Group at a later date.

The visiting committee for the Afternoon Group are Mrs. Thompson, Mrs. Teskey and Mrs. Craig.

After the Benediction was repeated, a lovely lunch was served by the hostesses, Mrs. Thompson and Mrs. Wynn.

Alfalfa Meal Improves Swine Grades

A swine feeding trial recently completed at Lacombe Experimental Station, Alta., indicates that the addition of alfalfa meal to the ration of market hogs not only improves carcass quality but may also reduce costs, reports J. G. Stothart.

A comparison was made of lots receiving no alfalfa, 5 per cent, 10 per cent, and 15 per cent alfalfa meal from weaning to market weight. There was little effect from adding 5 per cent but the lots which received 10 and 15 per cent scored 76.6 and 78.5 in carcass score respectively, compared with 70.5 per cent for the group which received no alfalfa meal. There was little or no difference in feed efficiency or rate of gain in the first three groups. While the fourth which received 15 per cent alfalfa meal, used slightly more feed and took about 10 days more to go to market. All lots were self fed.

The significance of these results lies in the fact that better carcasses were produced on a cheaper ration. Alfalfa is available on many farms, and it is of high quality—green and leafy—it can readily be put through the hammermill and added to the ration for pigs. It is cheaper to produce than the grains and as the Lacombe results indicate, it can comprise up to 10 per cent of the ration with good results.

More and more hogs are being self fed each year, and while this method of feeding saves labour, it can affect carcass quality adversely. Short thick hogs are inclined to become even shorter and thicker under self feeding than they would under hand feeding. To put it briefly, some pigs with feed in front of them at all times are liable to 'make pigs of themselves.'

Proper rations will correct this. A combination of oats, barley, and wheat, a protein-mineral supplement, and 10 per cent alfalfa meal makes a good ration for self feeding.

Alfalfa is also an excellent feed for sows. It can be fed in the form of hay, available to the sows in a rack all winter, or it can be ground and mixed with the grain ration.

Although more research work throughout the world is being done on cancer than on any other medical problem, scientists still have not discovered the cause of cancer.

Announce New Way To Shrink Painful Hemorrhoids

Science Finds Healing Substance That Relieves Pain—Shrinks Hemorrhoids

Toronto, Ont. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain. Thousands have been relieved—without resort to surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne)—discovery of a famous scientific institute.

Now you can get this new healing substance in suppository or ointment form called Preparation H. Ask for it at all drug stores. Satisfaction guaranteed or money refunded.

Korean Orphan 'Adopted' By Farrow District Farmer

The 11-year-old Korean girl shown above has been "adopted" by Calvin W. Lowery, farmer of the Farrow district who is providing for her care and training at a mission orphanage in Korea.

Mr. Lowery recently received the picture from those responsible for maintaining the orphanage along with a descriptive letter which makes interesting reading and which we are pleased to publish.

February 17, 1956

Mr. Calvin W. Lowery
Blackie, Alberta
Canada

Dear Mr. Lowery:

I am glad to be able to write to you that the name of the child, for whom you are so kindly providing care and training in Korea, has arrived. I enclose a reproduction, enlarged by our photographer from the very small one sent for our files. Most of our sponsors like to frame the pictures of their children and this size is a little more adaptable to that purpose.

I think you will be pleased to know that your child is living in our Sam Sung Ae Yook Won, in the lovely port city of Kun San. For here, on a little knoll that rises up from the Yellow sea, stand the pretty tiled and many windowed houses that a hundred and fifty orphaned children are happy now to call their home. In one of the nicest residential sections of the city it stands—near a tree filled park and near the red brick school house where all may have the precious privilege of "studying books." In the summertime the cool breezes from the sea float up the hill to where a shrub lined pathway leads through the big wooden gate and right up on to the main front door. And always, from behind that door, can be heard the laughter and the chatter of children—happy children at peace and at home again after months, sometimes years, of wandering in the streets and roadways of a hostile world.

I wish you could visit them here at Sam Sung Ae Yook Won. You would be grateful to see that, by some seeming miracle, these small domain escaped completely the concentrated bombing and shelling of the rest of this strategic port city of the Korean War. You would see below them, a busy harbor where UN supply ships lay all through the days of the conflict. And, stretching away up the valley, the little strip-line that chugged its way to Iri on the main line 20 miles away—laden with food and relief goods.

Closer around them you would see the pleasant neighborhood that the children now affectionately know as "our town," with its lovely old gnarled pines lining the pathways and its farmer citizens in their white clothes walking out to their fields across the little wooden bridges that span the streams and rocky banks. Off in the farther distance, there are the woods and fields where General Dean once wandered and was later captured. And here the children will always remember their soldier friends and their history books will forever record the momentous events that occurred in this place.

Now, however, they are busy with the simple things of school, of work, of play. The things of home, where "mother" Chung presides, her sweet, round face smiling its way into the hearts of her boys and girls. The clean white plaster and the shining floors, polished once a day in the best Korean tradition and repolished all day long by 150 pairs of busy little stocking-feet—also a Korean tradition! One wears no shoes in a Korean house! Here one helps "Mother" and nurse and cook and gardener. One helps greet visitors—and there are plenty of them. They love to show off the flower and vegetable gardens and the pigs and chickens, in the care of which they all take part.

The trip down the hill to school

each morning is a gay and noisy affair—singing, talking, laughing. Once they are well and strong again the children sing quite readily. Koreans, you know, are called the "Webb of the Orient" for they have fine, clear voices and even the children's voices ripen and mellow quickly. They sing easily and naturally and without embarrassment and I think no American soldier has ever visited our children here who will fail to remember the haunting strains of the "Arirango" and the "Toraji," the old, familiar Korean folksongs that sing of young love and the happy harvest time for farmers.

The best of it is, however, as Mother Chung tells us, these bright youngsters bring home from school each day fine records of which she knows you'd be very proud. They take their places with the children of the city in all the school activities and are often elected to offices and committee memberships in the school organizations. There are good little athletes among them and they become very excited over Sports Day and special events. The older ones continue their training

in the orphanage workshops, when they come home, for they must be equipped to earn a living later on. Here Carpentry, Painting, Blacksmithing, Barbering, Tailoring, Sewing, Embroidery Work, Home-keeping and other trades are taught.

But there's lots of time for play. "Badook" the roly-poly little mongrel dog welcomes them wildly and quickly the playground is alive with all sorts of ball games and ring games and dashing about. At length, when they're happy-tired, the supper bell rings. After supper there's study and meetings and time to plan their small events. Then there are evening prayers and everyone is off to bed, to sleep in peace, for here at Sam Sung Ae Yook Won, life is far removed from the long, unhappy days of wandering.

And so it is here in this happy Christian Home that your little ward lives and I am pleased to give you the following information about the child as Mother Chung has prepared it for you:

Name, Kyung Chun Ja; Age, born May 13, 1944; Grade, 2nd year Primary; Favorite Study, Nature Study; Chores, helps in kitchen; Meaning of name, 'Child of Spring'; Health, good now; Progress, good; Vocational Training, Home Economics; Favorite play, Skipping rope,

running games; Personal characteristics, a bright, helpful, likable little girl; Previous history—When their home area was attacked during the recent Korean War the family of this child lost everything and both of her parents eventually died as a result of excessive hardship and privation. There appears to have been no relatives and the little girl simply lived in the streets, foraging for such food as she got until one of the children from this Home saw her and was so overcome by her need that she brought Chun Ja to the orphanage.

There is nothing I can add that would convey to you, Mr. Lowery, the full meaning of your kindness to this child. You have given her life and hope and the opportunity to prepare herself to become a good citizen of that generation with which our own children must live and work and build the happiness of this small world. Please accept, again, our deepest gratitude.

Very sincerely,
J. Calvitt Clarke

1955 capacity to be expanded

EXPANSION PROGRAMME LARGEST IN THE INDUSTRY

Its matchless combination of qualities — lightness, durability, strength, appearance — has made aluminum second only to steel in world markets. New uses — for both civilian and defence purposes — keep increasing the relentless demand. The world demand for aluminum is presently in excess of supply and the immediate prospect is that, like other basic materials, aluminum will be a scarce metal during the months ahead. Despite continuing expansion of producing facilities, as shown in the chart above,

the fact is that the demands go up at a rate faster than new production can be pushed to completion at Isle Maligne in Quebec and Kitimat in British Columbia.

Steady increase in productive capacity has been accompanied by a corresponding increase in employment and payroll. Today in Canada there are 20,500 Alcan employees.

The payroll at the rate of \$70,000,000 a year contributes to all phases of Canada's standard of living.

Wrap-around rear window was another Chevrolet advance, making driving and parking very much safer.</p>
<p>SAFETY DOOR LATCHES Interlocking rotary safety door latches help to keep doors safely shut under impact. Chevrolet introduced them without fanfare in mid-1955, another forward step.</p>	<p>MID-BODY FRAME For your protection Chevrolet's body is further strengthened by a rugged structure giving the centre of the body — top, side and floor — a sturdy mid-body frame.</p>	<p>BABY-GUARD REAR DOOR LOCKS Important protection for your children. With lock button down, door cannot be opened even from the inside.</p>		

Look them over carefully. Most of these important safety features were pioneered by Chevrolet — the car that has ALWAYS taken your safety seriously.

18 Safety Firsts... by Chevrolet... a vital demonstration of Chevrolet's consistent, many-sided leadership. Leadership, you will note, not merely in protective safety features — but in PREVENTIVE features. Features which bring you surer, safer control of your car... new ease, precision and security of handling under all conditions. This is no new concern of Chevrolet engineers, and it has always been gratifying to find other cars eventually adopting so many of Chevrolet's contributions to your motoring safety. Directional Signals, Safety Padded Instrument Panel and Seat Belts with Shoulder Harness, all are available to you with Chevrolet. The largest-selling, most trusted car in the world MUST take a conscientious and a comprehensive view of your safety. And it does. Look over the record of Chevrolet Safety Firsts. Miss Jean Thorp has returned home after completing her second year term in the Laboratory Tech. at the University of Edmonton.

Mrs. Geo. Emor and Mrs. Dean Campbell of Calgary were visitors at the Bert Larsen home on Monday.

WISE TO GET CLEAR

When the city fathers of Calgary finally decided that the regulating of store hours was none of their concern, there were dire predictions of ruin and chaos. If municipal restrictions were abandoned, said the critics, all sorts of merchants would be forced to the wall and store clerks worked to death.

Well, says the Financial Post, after almost 40 years of more or less successful operation, the municipal restrictions have been lifted and, so far, both the store clerk and store owner seem to have survived. Some stores have decided to stay open on certain evenings, some have not.

Calgary municipal authorities have acted wisely in deciding to leave this complicated matter to the parties most concerned.

POLIOMYELITIS PREVENTION PROGRAMME

The Foothills Health Unit has started this week inoculating school children against poliomyelitis. As the vaccine is arriving weekly and only a portion of the requirements is received in any one week, it is inevitable that some children will be protected a few weeks before others. However, it is hoped to cover all children in Grades 1 to 4 who have never yet received the vaccine, and also to give reinforcing to those done in 1954 and 1955. Children entering Grade 1 in 1956 and 1957 will also be offered the vaccine, the time and place for giving it will be advertised in the press later.

A small supply will also be available for expectant mothers, and doctors in the area will be informed when the vaccines for this group will be available.

MORNING SERVICE, 11 A.M.—MOTHER'S DAY

EVENING, 7:30 P.M.—YOUNG PEOPLE'S

Information Concerning Lake McGregor Memorial Park

Last year a Park Association was formed among the close-lying districts.

The Park was fenced with steel posts and cattle guards installed.

Trees were planted and an irrigation outfit was purchased.

A race track was built and fenced.

Boat piers were started and a road was built.

A very successful picnic and race meet was held last year.

The farmers of the Queenstown, Armada and Milo districts are now being canvassed for donations of wheat. This wheat is to be turned into a feed grain and is to be sold by a committee appointed by the Association; proceeds to be used for the improvement of the Park. At this early date, over 5,000 bushels has been gathered.

It is the intention of the Association to build a permanent kitchen and booth, to establish a swimming pool, to drill a well, to build two good, permanent boat piers, to build good restrooms, to plant and care for more trees, to establish more recreational facilities for the children, to build grandstands and to improve the ball park.

Anyone who attended the picnic and race meet last year will remember a very enjoyable day.

The picnic will be held this year on Saturday, June 16, and many new attractions are planned, especially for the younger folks.

There has been much effort and planning put into this improvement of the old UFA picnic grounds and the committee feels that the Park is for the enjoyment and pleasure of the County at large, and would like to draw the attention of the County to its efforts.

Anyone who would care to make a donation of wheat and support this effort may do so by contacting Tom Beckner or Ole Ueland at Milo, C. M. Allen at Vulcan or Glen Sealock at Armada.

Tourists Pay Their Way

The average visitor spends over ten dollars per day in a community, often buying things the average Albertan doesn't need. Tourists buy what they want with money earned elsewhere, thus adding to our capital wealth.

Everyone Benefits

Food producers, farmers and processors . . . manufacturers . . . retailers . . . hotels . . . motels . . . service stations . . . transportation companies . . . dispensers of goods and services—all benefit from the tourist industry.

Courtesy Pays Big Dividends

Be helpful and friendly! Encourage visitors to stay longer. Be sure roadside and all other services are adequate, that accommodations and meals are always excellent.

TOURIST SERVICE WEEK - MAY 6 TO 12

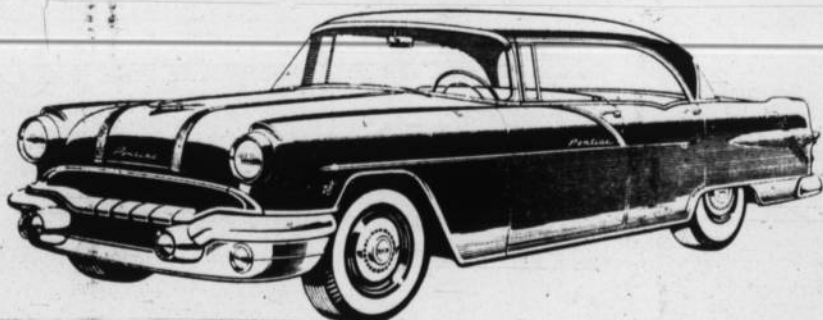

is dedicated to the improvement of all services for those who holiday in Alberta.

LETTER TO THE EDITOR

Editor,
Vulcan Advocate,
Vulcan, Alta.

Dear Sir:

Once again the Red Cross campaign month of March has passed and once more it is time to write to you to thank you for the generous support and co-operation you have given the Society. To say "we appreciate" your kindness is a most inadequate way of expressing the way we feel . . . for it is through your assistance that the people of the province rallied around to support Red Cross.

We do thank you, most sincerely, for your help, and hope that throughout the coming years the Society will continue to merit your support.

Yours Sincerely,
A. M. Cairns,
Hon. Chairman, Publicity,
Alberta Division, C.R.C.S.

VULCAN THEATRE

Next Tues., Wed., Thurs., Fri., Sat.
May 15th to 19th
One Show Nightly at 8:15
Matinee Sat. at 2:50 p.m.

Beyond all doubt the mightiest motion picture ever made. The spectacle takes place 3,300 years ago in the land of the Pharaohs. Violence, romance, passions, intrigues and cruelty are all interwoven in the story as the film unfolds.

Personally produced by Darryl F. Zanuck, all the resources of the 20th Century Fox studios were placed at his disposal to make this picture a milestone in the process of Cinemascope.
